Unique Redback slide-in kneepads for workwear trousers

Constructed from engineering plastics and using the patented Matrix Impact System, Redbacks slot into any standard work trouser and fit around the knee.

With their unique and patented design the redbacks offer unrivalled cushioning comfort, safety and breathability.

Available in an [extra thick](#) design for workers spending the majority of their time working on their knees.

Redbacks surpass the BS: EN 14404:2004 standard for knee protection as well as outlasting current foam competitors by up to 10 times.

An ideal companion to any of our workwear trousers from Dewalt, Timberland Pro or Dickies.
